Recognition of Housewives' Dire Retaliation.

ASSOCIATED PRESS

and Association of German Immigrants to recognize it as a labor union, was learned the organization's members, the housewives were employees or employers.

The selection disclosed differences of opinion among members of the various branches, some asserting that women who did their own housework were employees, while housewives having maid or other hired help were employers.

Objections to classifying married women whose household duties were performed by servants as "professionals" were brought about an attempt to evade the use by one of the words "professional" instead of "employed" in the classification.

Explaining detail of the application, the Parliamentary spokesman said:

"The organization must justify under the statutes by its justify the right to be designated as composed of professionals."

In connection with the application, which was submitted to the city by all towns and cities with thousands of members, there is a question as to whether an attempt will be made to enforce the demand for certain limitations of arbitration. It is even suggested that the more radical exceeds the present conservative officials. There is a provision that husbands will be asked to put their names to the application to organize women's rights by chance in the work of cooking, washing and caring for the children.

MEASURE IS PROPER
FOR WATER SERVICE

BY A. P. NIGHT WIRE

MAN, FRANCISCO, Sept. 15.—A measure in the water service is the only proposal, one, the State Rail Commission ruled today in announcing rates for the Mountain Water Company of Lamont Park, Los Angeles.

The commission fixed a maximum of 20 cents for each 1000 cubic feet or less, 25 cents from 1000 to 1500, and 15 cents for 1500 or more. The rate was set at \$2 a month.

FRENCH PARLIAMENT
TO MEET IN OCTOBER

BY A. P. NIGHT WIRE

PARIS, Sept. 15.—The French Parliament will resume work October 12, according to an announcement by Premier Briand will make an important political address at the National on October 8 and on the same day former Premier Clemenceau will make a speech at the Hotel de Ville, Paris, where a monument erected in honor of "The Tigris" will be unveiled.

CANADIAN RAILROAD
BONDS UNDERWRITTEN

BY A. P. NIGHT WIRE

NEW YORK, Sept. 15.—\$100,000 issue of 4 per cent sinking fund gold debenture bonds of the Canadian National Grand Trunk Railway of Canada were underwritten by a local bank firm today. The bonds run for fifteen years, are not redeemable and the Dominion guarantees the principal interest and sinking fund.

LOWER RATES THIS FALL.

Call Money Drops to Lowest Point of Year; Federal Reserve Rediscounts Show Decline.

BY ALEXANDER DANA NOYES,
Financial Editor New York "Times."
EXCLUSIVE DISPATCH.

NEW YORK, Sept. 15.—Despite a reactionary trend of prices on the stock exchange and in the large commodity markets, today's financial incidents were singularly interesting. They comprise a further decline in call money rates to 4 1/4 per cent, the lowest of the year, except for a single day in July, a decline in the German mark to the new low price of 95¢, and a rise in the year's highest figure both in the gold system as a whole and at the New York market.

On the face of things, the day's developments point to easy money throughout the autumn, not less so, perhaps, when the low rate for quarterly payments on the \$1,000,000,000 Federal taxes.

Decisions on the gold system, ranging from small fractions to 1 or 2 points in the active stocks, indicated little except the profit taking of speculators who judged that the market had lost its upward trend with the recent extensive closing out of related speculations for the decline. Transactions were much smaller than on any previous day this week.

BUSINESS NEWS.

Additional proof that Los Angeles is the nation's outstanding "white spot" was given by the figures of last week's national bank clearings. During the five days ended September 8, the total clearings gained 22.5 per cent over the corresponding period in 1928, and Los Angeles was the only one reported among the twenty largest American cities, average losses being 26.9 per cent. Especially large increases were made at Baltimore, Cleveland and St. Louis. San Francisco lost 8.2 per cent.

Figures compiled by Dun's Review show a 1.6 per cent decrease of decrease of the various cities during the five-day period.

PICTURE OF THE INDUSTRY.
Proof that the industrial depression is still with us, despite the earnings of the theater and the motion picture industry was given in figures just made public by the Commissioner of Internal Revenue, which show that the amount paid in amusement tax collections, during the fiscal year ended June 30, over a similar period in 1928. A total of \$85,714,805 was collected this year, as compared with \$104,745,351 in 1928.

These figures form the basis for an estimate that the people of the United States spent more than \$800,000,000 during the year on theaters, motion picture houses and amusements to which admissions are charged. Merrill, Lynch & Co., who are handling the \$100,000 Pathé Film Exchange issue, point to these figures as an excellent indication of the healthy state of the film industry.

PACIFIC COAST IMPORTS.

Sales of United Cigar Stores Company in the Pacific Coast customs districts during the seven months ended July 31, was \$9,425,000, against \$26,744,000 for the same period last year. Exports amounted to \$155,649,000, compared to \$285,893,000 in 1928.

LOS ANGELES STOCKS.

Profit-taking sales following Wed-

nesday's heavy gains caused Los Angeles Investment shares to drop 2 points to \$2.

The opening session of the Los Angeles exchange was 95, but the reaction set in in the afternoon, from which there was a slight rally, followed by a steady decline.

Gold is getting stronger and considerable interest is developing in these issues. Yesterday saw the bulk of the trading in United States Gold and Gold Bullion with a point advance. Over 3000 shares changed hands around this figure. Gold Oil held firm after its gain of a point and a half on Wednesday. Gold Mining gained 1 1/4 points, going to 7 cents.

The prospective settlement of the oil strike failed to remove General Petroleum, which had a 1 1/4 point advance. Over 3000 shares

changed hands around this figure. Gold Oil held firm after its gain of a point. On the other hand, Union Oil gained 1 1/4 points.

The industrial list showed some weakness, California Packing losing 2 points, and Goodyear Textiles dropping 3 1/2 points to 47. Goodyear preferred remained unchanged.

SALT WATER'S EFFECT.

Rapid increase in the central American Gold in Mexico by no longer is certain to have a beneficial effect on prices of American oil, pro-

ducers believe. A material improve-
ment in general business, bringing
most of the market buyers' opinion
into line with the superintendent's
estimate to the banks of the state.

Mr. Dodge drew attention to the
10,000,000 dollars held with the
banks of California, and stated his belief that it was these
accumulated funds that formed this
state's bulwark against the financial
trouble that has come to the superin-

intendent's office to the banks of the
state.

10,000,000 dollars held with the
banks of California, and stated his belief that it was these
accumulated funds that formed this
state's bulwark against the financial
trouble that has come to the superin-

intendent's office to the banks of the
state.

NEW ENGLAND UNIT.

Authorization to proceed with the
construction of an additional unit

in its Big Creek hydroelectric de-

velopment, has been given the
Southern California Edison Com-

pany by the State Power Com-

mission. The new plant will bring in 60,000
kilowatts by 1932, and the work to

be done up to that time call for

the expenditure of \$10,000,000.

The present plan calls for the
construction of a dam across the
Río Joaquin River, a new 1000 ft.

foot dam creating a forebay reservoir.

Water will be conducted from this

reservoir through a tunnel five and

three-quarter miles long to the pro-

posed power house, located in the
present town of Big Creek. The trans-

mission line will connect with the
present line carrying electric

energy to Los Angeles.

In reviewing the development

plan the commission makes

an interesting comparison

between the cost of developing

electric energy by water power and

by steam plant. The cost of develop-

ing electric energy by water power

is 1.4 cents per kilowatt-hour, but

the cost of developing electric energy

by steam power is 1.8 cents per kilowatt-hour.

"It is therefore apparent," the

commission says, "that the develop-

ment of additional water power

is the most economical way to min-

imize the cost of power.

It is pointed out that the oil

cost per kilowatt-hour is six mils

and other plant expenses bring the

total up to seven mils.

The increased demand for hydro-

electric power is indicated by figures

presented by the company. In 1918

the output of power from the sys-

tem was 100,000,000 kilowatt-hours.

While in the present year 1,000,000,000

kilowatt-hours are being devel-

oped, and the anticipated demand

is placed at 1,800,000,000

kilowatt-hours.

A Bountiful Harvest is Being Reaped by Conservative Investors

Those who "passed up" rose-tinted opportunities for "getting rich quick" during the fly-by-night war days and continued to buy only dependable, conservative securities of time-tried stability, are now being rewarded for their sound judgment. They are reaping a happy harvest—a harvest of consistent dividends.

We are loaning money to this company on its First Mortgages % Serial Gold Bonds. These bonds are so safe that they are a good investment for California Savings Banks. We offer these bonds, due 1930 and 1931, for a safe investment of your funds. Write for descriptive circular, all at our office, or telephone us when we may give you further information.

OIL OPERATORS STANDING PAT; TO CONFER TODAY.

Prospects of Long Shutdown Loom as Reports of Violence Come from Valley Strike Zone.

(EXCLUSIVE DISPATCH)

BAKERSFIELD, Sept. 15.—With prospects of a long shutdown in the Midway and Kern River oil fields because of the strike of union oil workers, both the operators and the strikers today anxiously marked time while awaiting definite results expected to materialize tomorrow at the meeting of the operators in San Francisco. All indications today were that the officials of the oil companies are more determined than ever to stand pat in their decision to refuse the union demands. This determination was evinced strongly in reports of an informal meeting held in Los Angeles by several operators today at which a program was tentatively outlined for discussion tomorrow in San Francisco.

Further reports of violence from the oil fields were received today by oil company officials here. Intimidation of merchants was reported from several places, and it was declared the union men were searching automobiles headed into the oil districts.

Officials of the union agreed to call the strike off if the operators would sign an agreement with the government, who have no grievance and who desire to continue their work, that it will be impossible to sell them supplies, raw materials, and equipment under existing conditions, and would serve only as an out-and-out recognition of the union.

Officials of the union agreed to call the strike off if the operators would sign an agreement with the government, who have no grievance and who desire to continue their work, that it will be impossible to sell them supplies, raw materials, and equipment under existing conditions, and would serve only as an out-and-out recognition of the union.

Grocers frankly told loyal non-union workers, who have no grievance and who desire to continue their work, that it will be impossible to sell them supplies, raw materials, and equipment under existing conditions, and would serve only as an out-and-out recognition of the union.

On Tuesday the strikers stopped a train of men and supplies on the Southern Pacific near Taft, refusing to permit the train to go farther. The men had been sent by oil companies in San Francisco to guard their properties. Wednesday morning, the railroad of oil cars near Taft was declared to be struck.

Strikers stopped a train on the Pacific and San Joaquin, between the Kern River and the ocean front, along the ocean front, and the latter route east of Taft. The strike declared, he could not sell drugs and other needed supplies to nonunion workers, so great was the pressure brought by the strikers. The strike was affected by the strike of oil workers at Kernville.

HIGHWAY At Kernville, Calif., strikers, director of public works, and chief of police, and other officials were held incommunicado.

Strikers, who are seeking to build the highway, between the Kern River and the ocean front, along the ocean front, and the latter route east of Taft. The strike declared, he could not sell drugs and other needed supplies to nonunion workers, so great was the pressure brought by the strikers. The strike was affected by the strike of oil workers at Kernville.

Strikers, director of public works, and chief of police, and other officials were held incommunicado.

TITCOMB NAMED RAILWAY CHIEF.

*Angeleno Heads the Southern Pacific of Mexico.**Elected to Fill Post of Late Col. Eps Randolph.**In California Transportation Work Thirty Years.*

H. B. Titcomb, vice-president and general manager of the Pacific Electric, and a California railway man of thirty years' experience, was elected president of the Southern Pacific of Mexico, to succeed Col. Eps Randolph, who died recently, at a meeting of the directors of the railroad in New York yesterday. Mr. Titcomb is now in San Francisco.

The Southern Pacific of Mexico runs from Nogales, Ariz., along the west coast of Mexico, touching at Hermosillo, Guadalajara, Culiacan, and Mazatlan, extending north into the State of Nayarit. It was constructed for the Southern Pacific through the energies and genius of Col. Eps Randolph, who overcame many difficulties in the way, and made railroading a success. In the country, where the bronco Indians made railroading a peril. In the long series of revolutionary disorders the road was frequently cut and the equipment destroyed. In spite of the handicaps, the company has opened up one of the richest sections of Mexico, and one subsidiary line, the Mexican National, is independent of any connections, save with the Southern Pacific, the owning road, at Nogales, penetrating a country previously dependent on mining shipping.

Mr. Titcomb is a veteran in the Southern Pacific service in the Southwest, having been connected with that road for a few years before he became vice-president and general manager of the Southern California electric interurban line of the Empire.

He was born in 1871 in Indiana, but as a boy, came to California, his family settling on a farm near Modesto. He was graduated in 1891 from the Cosmopolitan College and at once entered the Southern Pacific service as a draughtsman. He soon became assistant engineer of a construction division, and remained in that western division, being stationed at Shafter and Sacramento. Then he was assistant resident manager and later assistant district engineer at Los Angeles, and from there to San Francisco, where he was assistant to the chief engineer. He was made assistant engineer of the San Joaquin division in 1917, coming to the Pacific Electric from that post.

SEEKS TO STOP HIGHWAY PLAN.

(Continued from First Page.)

from a financial and engineering standpoint.

WASTE IS CHARGED. That the action threatened by the State board would involve an unnecessary, arbitrary and wholly unwarranted and wasted expenditure of public funds in that it will cause waste and loss to consumers, and to transportation is also charged by the petition.

The petition asks that the State Highway Commission be required to reconsider the highway plan, the route, and that it be enjoined and restrained from constructing it over the longer route. The petitioners also ask that the state recover of the respondents the costs of the suit.

ON NATURAL EFFECTS.

"Extras" in Harold Lloyd's comedy, "A Sailor-Made Man," under production at the E. M.高等 studio, are giving a valuable course in the fine distinction of words. First Mr. Lloyd himself gave them a new word, on directing, some other day. He then had some of the costumes somewhat studied so he said "Now follows, don't premeditate." Director Freddie Newmeyer, on Monday and Friday of each week at 1:30 o'clock in order to accommodate clerks and others who are anxious to learn the latest business methods. At 7:15 the evening the commercial Spanish classes will open.

A Danger Signal—Tender and Bleeding Gums

Healthy teeth cannot live in diseased tissue. Gums tainted with Pyorrhoea are dangerously diseased. For not only the teeth are affected, but Pyorrhoea germs seep into the body, lowers its vitality and cause many ills.

Pyorrhoea begins with tender and bleeding gums. Then the gums decay, the teeth decay, loosen and fall out, or must be extracted to rid the system of the poisonous germs that breed in pockets about them.

Four out of five people over forty have this disease. But you need not have it. Visit your dentist often for tooth and gum inspection. And keep Pyorrhoea away by using Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhoea—or check its progress—if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gum hard and healthy, the teeth white and clean. If you have tender or bleeding gums, start using it today. If gum-shrinkage has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.

35c and 60c tubes. All druggists.

INSURANCE DELEGATES SEE SIGHTS.

Visit Film Studio, Attend Rodeo at Inceville and Many Venice Concessions.

Yesterday was devoted to pleasure more than to business by the 1000 delegates attending the convention of the National Association of Insurance Agents, now in session at the Ambassador. While the morning was taken up with business, the afternoon was given over to various motion-picture studios, and ended with a barbecue at Inceville, where a rodeo was held for the visitors.

Automobile insurance took a prominent part in the day's discussion. Ways of combating the great loss to insurance companies by theft were considered and various remedies suggested. During recent years, it was stated, the increase in loss to insurance companies has been apalling, and the committee asked the agents to suggest some manner in which the drain may be avoided.

One of the features of the convention is the daily paper issued by the Insurance Field of Louisville, Ky. The publication is an eighty-four page magazine and is distributed in large lots. It is published twice a week after the various sessions of the convention close. It contains all the speeches made during the day and a complete review of the day's proceedings. The editor is Thomas R. Weddell of Chicago, associate editor of the Insurance Field and editor of the Insurance Field.

After yesterday morning's meeting the delegates boarded automobiles and were taken for a drive to the studios. The party stopped at the studio of Paul Draper at Inceville, where the barbecue and rodeo were given. The delegates were entertained by Tom Mix and a number of his other boys. In the evening they were guests of the city at many of the concessions.

Fund to Boost Book Left by Dry Crusader.

Dr. Ervin S. Chapman, prohibition leader, who died in this city last August 20, left an estate valued at \$11,800. According to the terms of his will, filed for probate yesterday, a trust fund is created for the benefit of his wife, who is to go to the care of Dr. Chapman and then a new trust fund is to be established in charge of Dr. Glenn Will, the fund to be used to provide for the wife of Dr. Chapman.

The document states that Dr. Will received an equal amount with Dr. Chapman in the production of the work and that the estate is so apportioned for the reason that two daughters of Dr. Chapman are well provided for and his wife is abundantly able to care for himself. Upon the death of Dr. Will, if there is any residue from the fund, it is provided that it shall go to the daughters and son.

ENROLLMENT IS HEAVY.

College of Commerce is thronged by those seeking instruction.

Enrollment for the evening division of the college of commerce and business administration of the University of Southern California last night was heavy. The new quarters in the Realty Building, 631 South Spring street, were thronged with young men and women who desire to take advantage of the special offer made by the University of Southern California to those who cannot spare the time during the day to attend the university.

The first lectures are to be given at 5:30 p.m. today to a section of the class in "Business Speech." This is a one-hour course, and it will be on Monday, Wednesday, and Friday of each week at 5:30 o'clock in order to accommodate clerks and others who are anxious to learn the latest business methods. At 7:15 the evening the commercial Spanish classes will open.

Women's and Misses' Slip Over Dress, Butterick Pattern 3280. The embroidery design on the bodice is an adaptation of transfer pattern 10914. This dress comes with or without blouse body lining. Materials suggested are velvet with Canton crepe, charmeuse or crepe back satin in two colors, tricotine with taffeta, and so forth.

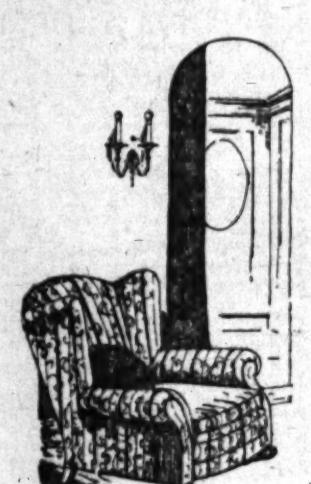

Woman's Coat, Butterick pattern 3273. The curved line of the dropped waistline front and back and the flowing sleeves make this model decidedly unusual. Duvet de laine and similar soft pile materials, fur fabrics and heavy silk crepe are among the fabrics that would lend themselves admirably to this model.

The DELTOR

The Deltor offers a unique service. It so simplifies the cutting and putting together of garments that anyone can make her own clothes with a minimum expenditure of time and energy.

Moreover, it insures that subtle something—good style. So that the finished garment has the air of being expertly made.

All the patterns illustrated on this page come complete with the Deltor instructions.

SECOND FLOOR

J. W. Robinson Co.

Seventh and Grand

For Those Who Sew, This is a Page Full of Timely Suggestions

Canton Crepe, \$3.85
Satin Phalanx, \$2.65

Robinson's is offering both of these as extra values for Friday.

Firm in quality, delightful to work with and lending themselves to the late designs, these Canton Crepes and Satins are fabrics that please all women.

750 Yards of Satin Canton Crepe, 40 inches wide. In ivory, tomato, almond, steel, peacock, Navajo, American Beauty, gendarme blue, taupe, walnut, navy and black, \$3.85 a yard.

200 Yards of Satin Phalanx, 35 inches wide. This closely woven material with a soft satin finish is well known for its wearing qualities. It comes in 60 different shades and two-tone combinations, among which are lavender, nattie, Nazimova, Venice, jade, Helen, sunset, sapphire, seal, marine and navy. \$2.65 a yard.

SECOND FLOOR

The New Silks

Faile Gros de Londres—a new weave in glace colorings. 36 inches, \$4.00.

Danella, an all silk pebbly crepe of the weight of chiffon velvet. In ivory, canyon (yellow), mauve, empire (green), silver, Egyptian, Lucifer (orange), amethyst, fuchsia, mordore (brown), crow blue (midnight) and black. 39 inches, \$12.50.

Here N There Crepe Skirtings—the stripes run crosswise so that the width may be used for the length. 40 in. \$6.75 and \$7.00.

Crepe Sylla is a reproduction of Bianchini's Crepe Romaine, only it has more body than the French material. The dull surface makes beading and embroidery very effective. 40 inches, \$7.00.

Crepe Canton in all the wanted shades. 40 inches. Attractively priced, beginning at \$4.00.

SECOND FLOOR

Handkerchief Linens

The fall shipment of colored Handkerchief Linens has recently arrived. They are 36 inches wide, and come in the bright sports shades for blouses and handkerchiefs, and in the lighter tints so high in favor for underwear. \$1.35 a yard.

SECOND FLOOR

Crepes and Ginghams

Robinson's had over 30 shades of Japanese Crepes which were made in the Orient especially for them.

This is Crepe of the better quality for smocks and dresses. It is priced at 40c a yard.

New imported and domestic Ginghams are in. There are solids, stripes, checks and plaids. The prices \$3.50 to \$1.25.

SECOND FLOOR

Furniture

Embodying the best in quality, comfort and beauty that it has ever been Robinson's privilege to offer, 200 Pieces of Overstuffed Furniture are now offered at very low prices.

There are Day Beds, Settees, Wing and Arm Chairs, Side Chairs and Rockers. The upholstery gives this Furniture a comfort value not to be overlooked, being of damask, tapestry, cut velvet and mohair.

In this lot, chairs are as low as \$65.00; Settees at \$125.00, and Day Beds at \$59.75.

*SEVENTH FLOOR*French Serge, \$1.10
Knit Angoras, 95c

Limited quantities of French Serge, Knit Angoras and Romongoras will be offered on Friday at less than a dollar, in the one case, and a trifle over in the other.

Alert shoppers will come early for these.

300 Yards of fine all-wool French Serge, 44 to 48 inches wide. This is a dress-weight serge of a beautiful quality and finish. It is adaptable for both misses' and children's wear. It comes in all the shades for winter wear. This Serge formerly sold for three times this price, \$1.10 a yard.

250 Yards of fine Knit Angoras and Romongoras, 46 to 50 inches wide. Shown in a full range of new fall color combinations in stripes and plaids. Especially appropriate for robes, wraps, capes, scarfs and so forth. These knit fabrics are light in weight and yet have warmth. This price is far below the actual cost to manufacture, 95c a yard.

SECOND FLOOR

Seasonable Sewing

The turn in the season is quite a problem.

One feels "shabby" in the old clothes and has uncertainty as to what will be correct in new apparel.

The exclusive designers for Butterick patterns present the best and latest ideas of Paris and New York. Their treatment of styles is strictly dependable.

As for fabrics and dress accessories—Robinson's offer staple materials and much that is new to the fall of 1921 which will aid immeasurably in the solution of one's sewing problems.

SECOND FLOOR

New Trimmings

Vivid trimmings will add greatly to the fall costume.

Chenille, one of the season's smartest styles, is featured in all-overs and flounceings. A heavy dot either plain or reversible is mounted on a very fine net. Prices for Chenille All-overs begin at \$12.50; for Flounceings at \$18.50 a yard.

For bodices and panels, the late Sequin and Bead Bands are effective. Some feature chenille designs combined with contrasting colors of sequins. The all-overs, 27 inches wide, are of green and orange sequins, also of opalescent beads and sequins in fascinating combinations. \$2.50 and \$4.50 a yard.

Tunics and Over Dresses practically "make" a frock. They are of spangles and beads. A group of 20 has been reduced to \$25.00.

FIRST FLOOR

Table Linens

An exceptional purchase of 300 Table Cloths and 200 dozen Napkins was made for Friday's selling.

Robinson's is able to mark these Cloths and Napkins at figures which are the lowest in months.

These are all pure Irish Linens—satin damask of firm quality.

70x70 Pattern Cloths	\$6.85 each
22x22 Napkins to match	\$9.35 a dozen
72x72 Pattern Cloths	\$8.85 each
72x90 Pattern Cloths	\$10.85 each
72x108 Pattern Cloths	\$13.35 each
20x20 Napkins to match	\$9.45 a dozen

SECOND FLOOR

Cretonnes, 95c

3000 Yards of Cretonnes have been greatly reduced. The new low price is 95c. Some of them were formerly twice this amount—and more.

These Cretonnes in many late patterns and color blends make beautiful draperies for the windows of certain types of homes, particularly bungalows, and are being used for some delightful bedspreads.

They are essentially Cretonnes for California homes.

And the price—95c.

SAVES CREW OF BURNING SHIP.
Steamer Nears Port With Men Found in Open Boat.
Story of Long Fight Against Flames is Related.
Forward Changes Course in Effort to Give Aid.

Steamer Burnhold was approaching San Francisco late last night with a crew of 100 men, comprising crew of the power schooner which was captured and set on fire. The crew fought the spreading flames for many hours. The excessive heat forced them to abandon the ship and shove off in an open boat. After the men were picked up by the Burnhold the crew sighted the burning Lotus near Harvard. Capt. Randall of the Lotus sighted the steamer and turned his course to render any assistance.

Master Homhoff was ad-
vised the fire was burning late last
night, and the power schooner
was removed from a
burned vessel at sea.
The vessel sighted the burning
vessel about sixty miles north
of San Diego, and at a
little after 10 p.m. was soon drifting in
the harbor and the
men went out and picked it
up.

Men told how the
vessel was burning severely
when it was taken from San
Diego, and was held. The
vessel was drifting for many hours,
and the men forced them
out to the west and drove on
the Lotus had been saved.

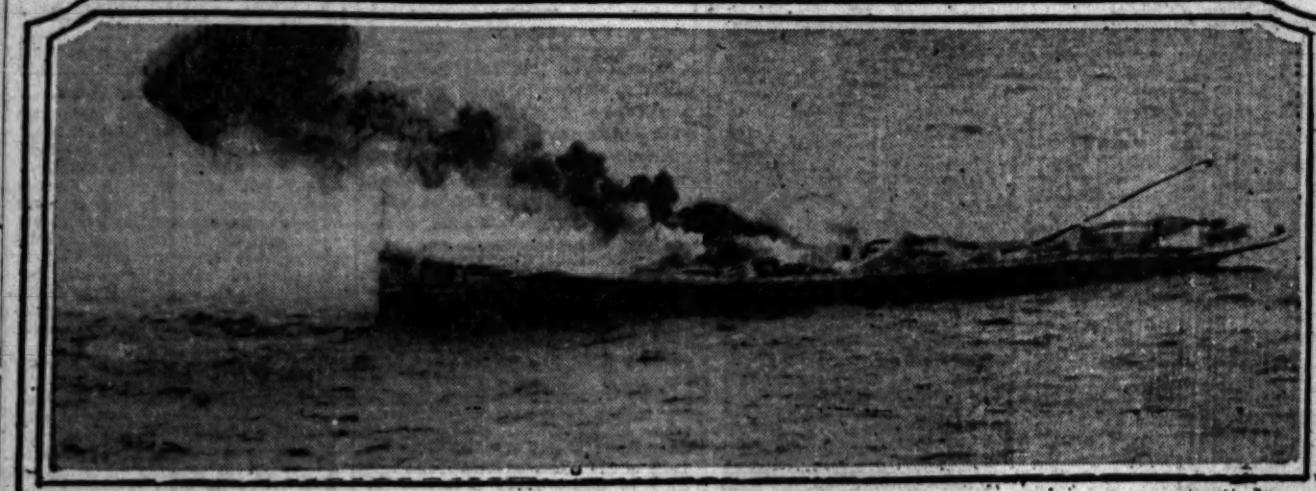

The fire in the hold of the
vessel was discovered when the craft was
off Point Hueneme. The vessel left
the harbor this afternoon for San Diego, where it was
to be placed in the passenger trade
between San Diego and Mexico. Its
course was changed at
the harbor and the
vessel was to render any assistance

available.

Junior's and Girls' Dress,
Butterick Pattern 3199.
With Russian closing and
straight skirt attached at waistline. Suitable
materials for this design are
gingham, linen, crepe de chine,
pique, wool jersey or
combinations, such as a taffeta
body with serge skirt, plain
silk body with striped silk
skirt, and so forth.

Jacoby Bros.

Between 3d & 4th

Jacoby's Is Now Open All Day Saturday!

A Sale of Silk Lamp Shades

—We had to buy several hundred of them in order to get them to sell for so little.

—Why, do you know that it costs more to make such shades as these than we have priced them?

—But the most important fact about them is that they are here—hundreds of them and they are going to be sold at \$7.98 and \$8.98.

—Almost every good color is included—rose, blue, gold and several others and they're all finished off with fringe in a shade to match.

—The pictures tell you much about the different styles—though you can well understand that we couldn't begin to illustrate them all.

—No phone orders on these—no C.O.D.'s—and none delivered except at an extra charge.

100 Mahogany Finished
Floor Lamps Friday at... \$6.98

—Both regulation and junior standards—all fitted with two light pull chain sockets and long silk attachment cord.

Balcony, South Building—Jacoby's.

54-Inch and 48-Inch
Wool Plaids at \$2.49

—This is a way less price for beautiful all-wool velours, worsted checks and Scotch plaids—and the qualities are the kind you'll fully approve.

300 Yards 54-Inch Navy Serge at \$1.19

—A serviceable weave that has all-wool warp and a filling of long staple cotton. The very fabric to make the school skirt.

Second Floor, South Building—Jacoby's.

I've Heard So
Many Women
Talking About
Jacoby's Hats

—That I have come to see them for myself—and now that I have seen them—and bought them (she bought three)—I can understand the why of everyone's enthusiasm.

—And this woman is but one of many who are hearing about this newly reorganized Millinery Section and the hats it holds.

—We've set out to make the Jacoby Millinery Section the most talked of in all Los Angeles! Just talk hats with your next-door neighbor and see how well we have succeeded.

—You'll find quite as much in the way of price as in style to arouse your interest!

Third Floor, North Building—Jacoby's.

40 Doz. 72x90-In.
Seamless Sheets at... 89c

—A very well known make,
and the price is WAY under
regular.

Second Floor, South Building—Jacoby's.

60 Pairs Plaid Woolcap
Blankets at \$3.98

—They are such wonderful values
that the last pair should be sold
pretty soon after opening time.

Second Floor, South Building—Jacoby's.

2000 Yards 36-In. Scotch
Outing Flannel at 25c

—And just when you are planning to
make the warmer sleeping garments
comes this welcome sale!

—A much-liked quality of a well-
known fancy striped outing flannel.

Second Floor, South Building—Jacoby's.

240 Women's Nightgowns at \$1.00

—There are four styles at this special price—two plain
with round or V neck and embroidery trimming, and
two pretty lace trimmed styles.

Second Floor, North Building—Jacoby's.

That Wonderful New 3d Floor

A Sale of the World's
Most Famous Make
Silk Gloves
(All 16-Button Lengths).
\$1.29

—We should like very much to tell
you the real worth of these gloves
—but we'd like even more to be
able to tell you the name of the
manufacturer, for it stands for the
very best in glovedom.

—But these gloves are classed as
"second," though why, it is diffi-
cult to say, and so you can see it
would be fair to advertise the
best through the gloves and their
best carry it.

—They come in black, white and new
silks, and in a full range of sizes.
All have double tipped fingers.

Both 12 and 16 Button
Chamoisettes at 98c
—Don't imagine buying real chamois-
ette gloves at such a price! They
are with both plain and embroidery
and leather. All sizes and a good
range.

—Many are slightly imperfect.

Second Floor, South Building—Jacoby's.

—is attracting a world of attention from
feminine Los Angeles.

—We want you to feel free to come see this
attractive new garment store even if you
have no intention of buying.

—And we want you to know that we will
count it a pleasure to show you the new garments!
We have so much confidence in them—we are so positive of the rightness of
their styles and the Betterness of their
Values that we know we only need show
them to you to arouse your enthusiasm!

—Here's an example of the very exceptional
values we have assembled:

Beautiful, New
Fall Dresses
At Less Than Usual Cost
\$23.00

—And of quite as great importance as the low-
ness of their price is the fact that they are all
brand new—the very models that are in vogue
right now.

—One model is pictured—we wish we might
have room for the others, for you'd like them all
quite as well as this one.

—Most of them are of Canton crepe, though
there is a goodly number of crepe meteors,
satin charmeuses and crepes de chine! Black
predominates, with navy, brown and Copenhagen
well represented.

—We think these dresses at \$23.00 make up one of
the most sensational sales that Los Angeles
has seen in months!

The New Floor of Garments—The Third—Jacoby's.

2000 Yards 36-In. Scotch
Outing Flannel at 25c

—And just when you are planning to
make the warmer sleeping garments
comes this welcome sale!

—A much-liked quality of a well-
known fancy striped outing flannel.

Second Floor, South Building—Jacoby's.

240 Women's Nightgowns at \$1.00

—There are four styles at this special price—two plain
with round or V neck and embroidery trimming, and
two pretty lace trimmed styles.

Second Floor, North Building—Jacoby's.

PAIR IN CLASH OVER DIVORCE.

Sliding Income and Drinking
Pact Told in Court.

Wife Asks Thousand Dollars
Month Maintenance.

Husband Says He Virtually
Was Driven Away.

Charles A. Kenyon, scenario
writer and author of "Kindling,"
and his attractive wife, Elsa Cook
Kenyon, were principals in a hotly
contested divorce action before
Judge Stephens yesterday. Each was
trying to show that the other was
not virtuous, which was held
as having occurred in October, 1919.
The Kenyons were married in 1917
and the playwright is Mrs. Kenyon's
husband. The former, the former two having
been divorced.

Mr. Kenyon filed suit for separate
maintenance, asking \$1,000 a month.
Mrs. Kenyon counter-sued on the ground
of desertion. Attorneys McComb & Cant represent Mrs.
Kenyon, while attorney Paul D'Orsi
represents the husband. The case
probably will be completed today.

INCOME SHRINKS.

High lights of yesterday's testimony
was the admission by Mr. Kenyon that he paid an income tax
on \$20,000 last year. He testified
however, that he has received in
royalties on "Kindling" during the
past year.

Mr. Kenyon testified that his wife
had thrown him out and she would
have to throw him out again. She
told me that she had never been
able to get any money out of her
other husband and that this time
she was going to make her husband
pay.

Mrs. Kenyon testified that her
husband came home late at night,
and that when she asked him
what he was doing, he said that he
had to live his own life and that if he
could not live it there he would live it
some other place, and that forthwith
she left him. "He accused me of
having highbrow ideas," said Mrs.
Kenyon.

BLAME WIFE.

Mr. Kenyon opposed this testimony
by stating that his wife treated
him unkindly and unmercifully, that it
became necessary for him to leave,
that leaving was the only manly
thing to do under the circumstances,
and that she was deserting him be-
cause her actions caused him to go away.
He charged that his wife had
accused him of keeping a
dame at Vernon, and that she had
often told him that she did not like
his type of woman.

According to the playwright's testi-
mony, he had an agreement with
his wife whereby, they were to
take turns for drinking at parties.
Numerous parties at various restaurants
figured in the testimony, and it was
admitted that drinking took place at
virtually all of them.

SHOWS WAY BANK GANG IS SNARED.

Tells Method of Trapping
Huntington Park Suspects
Jailed in Seattle.

How the round-up in Seattle of
three suspected members of the day-
light hold-up gang that robbed the
Huntington Park branch of the Los
Angeles Trust and Savings Bank of
\$20,000 August 26, was effected
yesterday by Asst. Supt. Driggs of the
Pinkerton Detective Agency.

A representative of the bank left
last night for the northern city to identify
the men, if possible. Four witnesses
have recognized pictures of
one of the men in custody. Mr.
Driggs says.

The same gang that robbed
the bank last August staged a \$25,000
hold-up of a bank in Seattle. Members
of the three men now held in
Seattle have been checked, Mr.
Driggs says. They were in Los Angeles
August 1 and Redmond, alias
Buddy Martin; J. E. Redmond, alias
Jimmy Ryan, and James Farley,
alias Burns.

Through the purchase of an automobile
and the renting of a bungalow
in Silver Lake, the three men
have been checked, Mr.
Driggs says. They were in Los Angeles
August 1 and Redmond, alias
Buddy Martin; J. E. Redmond, alias
Jimmy Ryan, and James Farley,
alias Burns.

The return to Seattle of the three
men was to have been for the purpose of obtaining
a false name, the men were to have been
in the bank messenger's office in
Seattle officers were on the lookout
for the men and through information
supplied by the Pinkertons were able to apprehend them
Wednesday.

TELLS TARIFF NEED.

HAD TO HURRY.
They ran a regular train the other day from Philadelphia to Atlantic City at the rate of eighty-three miles an hour. When people are in a hurry to get away from Philadelphia, they will take almost any kind of a chance.

THE RENAISSANCE.
President Harding has appointed Hernando De Soto as Consul-General to Berlin. This will be a surprise to many people who held the opinion that the gentleman was dead. The speculation over his casket appears to have been ill-timed.

STONED FOR BREAD.
Diamonds are said to be about the cheapest things there are in Russia. That is largely because people cannot eat them. They can be bought for less than \$40 a carat in gold and some folks would be glad to exchange them for carrots on even terms.

TAKING A HAND.
The government is going to take a hand in the Arbuckle affair, by heck! The prohibition officials are going to probe the house end of it. They are going to demand the name and address of Fatty's favorite bootlegger. The country is going to be made safe for the rest of us.

MAY BE A REASON.
The assertion is made that rents in the Seventh and Broadway district in Los Angeles are as high as on Broadway, New York. Well, why not? Isn't Los Angeles the metropolis of the West? There are as many bustling citizens on the street here as there are on Broadway in New York.

ONCE UPON A TIME.
The International Free Trade Congress is in session at Amsterdam. This is a gentle reminder of the days when free trade was being spoken and sung by numbers of American voices. Like free love and other democratic theories, it is eloquent in argument, but in practice it falls at the first test.

CLASSED TERMINALS.
They are building a union depot at Chicago that will cost about \$60,000,000 when completed. Why can't we do those things in California? When one railroad brings over half a million people into the State in a single year it would seem that Los Angeles should be able to welcome them at a station slightly in tune with the beauty and dignity of the city. When will the Plaza station dream materialize?

WHEN IN ROME.
Surprise is expressed in San Francisco that none of the Latin quarter nights supposed to be held in Glendale here in Los Angeles has ended in a public scandal. Residents of the metropolis of the north judge the manners of our movie colony by orgies occasionally held in San Francisco in which stars from Los Angeles participate.

The surprise is mutual. It strains our credulity to believe that the film favorites who never shock the proprieties in our Hollywood suberb, who never here approach even the frontiers of indecency, should engage in such crimson revelry while passing week-end in San Francisco, the city of the Argonauts.

Perhaps the solution of the mystery is to be found in the fact that, as Taine and Huxley have pointed out, all true artists are creatures of their environment. It must be that their hilarity in the north and their circumspection while at home are the result of following the ancient adage, "When in Rome do as the Romans do." Of course, when the "chemically pure" ones of Los Angeles become hungry for the impure in its worst forms they hasten to San Francisco.

THE BEAR FACTS.
The Postmaster-General once more calls attention to the composite but possibly inefficient character of our government through the manner in which it looks after its bears. The polar bears, being mainly identified with the seal industry on the Pribilof Islands, are in the keep and custody of Herbert Hoover, Secretary of Commerce. The grizzlies are in the charge of the Secretary of the Interior, who has dominion over Alaska. The brown bears on the ranges are the hairy subjects of the Secretary of Agriculture. The bloodthirsty bears of Wall street are supposed to be under the control of the Secretary of the Treasury. Anyhow, here are four different kinds of bears and each under a different department of the government. The bear facts constitute a criticism of our democratic government. We have barely enough to run the country and here we go to the expense of setting four tables for four different kinds of bears. It is more than we ought to bear. The Democratic administration was entirely to blame for this waste and extravagance. The new administration is trying to correct it. It has been suggested that all the nation's bears be consolidated into one bureau. One man could take care of it with his bare hands. Possibly the Vice-President, who already has Senators Borah and Johnson on his hands, could handle the whole flock of bears with out getting up a perspiration. But something ought to be done to save the nation from this barefaced example of official waste.

THE WORD OF A UNION.
The Chicago building-trades unions made solemn agreement to abide by the decision of Judge Landis as arbitrator and to return to work under his behest. But because he did not decide wholly in their favor they repudiated the agreement and some of them have organized fresh strikes. All of which goes to prove what has long been known: That neither the word nor bond of a union is worth a blade of grass.

GIVE US A SONG.
Able-bodied men and women in different sections of the country are arising and asking in one voice if some responsive and capable soul will not kindly write a popular song composed of sweetness and light instead of paprika and jazz. Can't some hard break away from the fox-trotters long enough to cone a few bars of something akin to "The Rosary"? Somewhere a voice is calling for a decent song and when it comes we will have another perfect day.

THE REVOLT IN AFRICA.
"Always something startling out of Africa," was a saying among the Romans. Today Spain, France and England, Rome's heirs to the dark continent, are realizing its grim accuracy.

Spain, a part of her army routed and another portion of her troops besieged in what was intended as an outpost for police purposes, has been brought to the verge of a revolution at home because of the debacle in North Africa. France, stinting neither money nor men in her efforts to make her hold on that region firm, is confronted with a series of Bedouin raids which have assumed the status of an unpunished revolt.

England, pivoting her Eastern and Near Eastern policy for almost a century on Egypt, faces there a condition of unrest and hostility which has for a time caused the Foreign Office to neglect the pressing problems of the Orient under the strain of a menace to the very foundation of her colonial system.

SETTLING UP WITH MARS.
We are informed by the statistician that 7.2 per cent of all national expenditures by our government at the present time are for purposes of war.

Take a pencil and paper and figure up how much of your Federal taxes are a tribute to Mars.

War is humanity's greatest source of waste.

Mankind can never be truly thrifty until the last shot of the last battle in the last war has been fired.

That will probably be a good many years from the present time.

Human civilization has not yet reached the point when it can get along without fighting and killing, devastating and hating.

Before there can be an end of war there must be many changes in human nature.

But the best thought of the world is being directed toward universal and eternal peace. It should be in the minds of all men in all countries that war should cease forever. [Thrift Magazine.]

France must retain her hold on Africa

CAMPING DEMOCRATS.
If the Democratic party desires to pass from the world of politics into history as a thing that has lived, but no longer exists, its present leaders are preparing for it a fitting exit. The Democratic National Committee is flooding the newspaper offices of the country with propaganda attacking the spirit of the approaching disarmament conference and forecasting the certain failure of the latest attempt of the nations to advance along the highway leading to universal peace.

According to the National Democratic Committee, no peace movement can be successful that is not directed by the Democratic party. The Bourbon bosses have conceived the idea that the people of the country will no more support the disarmament conference than they would support last year the Democratic party on the League of Nations issue. They are striving to so manipulate the trend of public opinion that the question of disarmament shall be the dominant issue in the 1928 Congress elections and that the Democratic party shall occupy the same position that the Republicans held in the 1920 campaign. They see an opportunity to sweep issues to get on the other side of the question. They now repudiate what they fought for a year ago. Popular favor is, to them, a boon to be purchased at any price.

They would condemn in advance the new peace conference in order to be in a position to say "I told you so" in case of failure. While, if it succeeds, they will forget their present pessimistic prophecies and claim that President Harding has only carried out the policies of the Wilson administration. At no other time within a generation has the Democratic party suffered from such an impoverishment of leadership. The most notable Democrat in public life is Senator Underwood, who is one of the disarmament commissioners. The small caliber of the others is exposed by the petty policies they espouse.

The Times is fully aware that the opposition of the Democratic leaders will render the labors of the disarmament commissioners more difficult. We had hoped that the issue might be kept out of partisan politics; but the Democrats will not have it so. Unwilling of the benefit to all civilized nations of voluntary disarmament, they would have the peoples of the different countries continue to carry their present burdens of armament taxation rather than to have the credit of lightening the load go to the present administration.

The Democratic National Committee protests because:

The simple question of disarmament has been complicated by the injection of purely diplomatic Asiatic questions which can operate only against speedy and successful results.

Apparently the Democrats would have this country proceed forthwith to disarmament with all the questions now threatening the peace and the security of the Pacific area unsettled. They object to an attempt to remove the causes to future wars. They would have us disarm today only to take up arms again tomorrow. The policy they advocate is simply one of unpreparedness.

If that is the issue on which they seek to concentrate in 1928 The Times sincerely doubts that they will suffer a still worse defeat than in the 1920 elections.

Peace is possible only when the causes that lead to wars have been removed. If the disarmament conference fails to compose the differences that now exist relative to the development of the Pacific area, regardless of the extent to which disarmament takes place, it will register a failure.

Richard Lathimore, director of publicity of the Democratic National Committee, corps about the caliber of the men who will represent this country at the conference. He writes that:

The record of President Harding as Senator and as Chief Executive shows that he has been unsympathetic toward disarmament and world peace. The record of Senator Lodge in the Senate shows him to have been a jingo throughout his entire career and the antithesis of the spirit which should govern a conference of this sort, particularly in relation to his attitude toward Great Britain and Japan, two of the principal conferees.

Some information of the plains of the scientists has been divulged. They are being worked out at his estate near Desauville, in France. The astronomer associated with him is Prof. David Todd, who is quite well known in heavenly circles. They are going to have their telescope ready by 1924, at which time Mars will be nearer the earth than at any other time this century. The telescope will neither be located in France nor America, although most of the machinery will be made and designed in this country.

The best observation point is on the west coast of South America. There is an abandoned mine shaft near Chanaral, in Chile, and this will be used for the barrel of the telescope. It will be sheathed and will be fifty feet in diameter.

The problem of glass mirrors has been solved. Instead there will be a flat dish of sheet steel fifty feet in diameter in which mercury will be poured. When this is whirled at a certain speed of rotation, the mercury will form a concave form and become a perfect mirror of massive proportions.

It will be sheathed and will be fifty feet in diameter. The problem of glass mirrors has been solved. Instead there will be a flat dish of sheet steel fifty feet in diameter in which mercury will be poured. When this is whirled at a certain speed of rotation, the mercury will form a concave form and become a perfect mirror of massive proportions.

Instead there will be a flat dish of sheet steel fifty feet in diameter in which mercury will be poured. When this is whirled at a certain speed of rotation, the mercury will form a concave form and become a perfect mirror of massive proportions.

The professor says that it will be possible to magnify the planet 25,000,000 degrees.

The surface will have to be split up into sections and mapped by tracts. It may be possible to not only diagram the canals, but the post roads of Mars. First thing we know they will be offering automobile maps of Mars with all details described.

The location of all hangars will also be shown for the accommodation of our airmen. According to the calculation of the promoter the telescope will bring Mars within a mile and a half of the earth—that is, for purposes of observation. That would be much the same as photographing the Hollywood hills from Sunset Boulevard. By snap-shooting or the use of the motion-picture camera some curious spectacles may be captured—provided the project pants out according to the professor's imagination.

In the meantime Marconi is trying to talk to Mars through the marvelous radio equipment of his yacht. Perhaps Mars will learn all about us and the Arbuckle scandal within in the next century.

THE REVOLT IN AFRICA.

"Always something startling out of Africa," was a saying among the Romans. Today Spain, France and England, Rome's heirs to the dark continent, are realizing its grim accuracy.

Spain, a part of her army routed and another portion of her troops besieged in what was intended as an outpost for police purposes, has been brought to the verge of a revolution at home because of the debacle in North Africa. The Path of the Moonshine.

THE TIN GODS.

BY MYRA NYRE

"I am sorry that this has happened to Fatty. In many ways he is a prince of a fellow." This is what a fellow-member of his profession said of Roscoe Arbuckle's present predicament. Happen to Fatty? What of that as compared to what happened to Virginia Rapp, a chaste, motherless, brotherless girl? And a prince of a fellow! Dear God, what mockery! A prince is he, a son of the Most High?

"Now are ye the sons of God, the king, and it does not yet appear what ye shall be." Princes are they who are kind, who are generous in thought as well as in deed, forgiving rather than critical, who rule the spirits, who are the emblem of weak failure and tolerant of evil. They are not princes who spend lavishly and do not pay their debts.

"Now are ye the sons of God, the king, and it does not yet appear what ye shall be." Princes are they who are kind, who are generous in thought as well as in deed, forgiving rather than critical, who rule the spirits, who are the emblem of weak failure and tolerant of evil. They are not princes who spend lavishly and do not pay their debts.

carrying trade there must have
some connections.

Los Angeles is to have a
winter baseball. The bodies
that appear, like that of any
other, go where the money
They used to play baseball for
pure love of the game—but that
long ago.

Old Col. House, who has
gears on the pulse of Europe,
things are getting better over
every day—especially now
that some situations become
that any change it for the
they can't get worse.

Germany is turning out a
every four days at the Hanover
Bremen yards. In other words
have made up their mind to
back their old position in the
carrying trade there must have
some connections.

Germany has gone to
in earnest—and that is another
that cannot be said of some
nations.

We are to have the
annual comedies. The
season. Wonder
music from?" What
long dead composers will
nothing new under the
sun. Every
is growing reminiscent.

OLD LOVE LETTERS.
What heartache in this
call:
Forgetful dreams of paradise
all!
But still they have an odor
The pressed rose fragrance
saint.

White water runs and
sing." His love would last, he
wrote:
But time has left its bitter
And give the heart no
No harm to the world.
That grief alone must grieve,
join in a program of patriotic songs.

These minutes, yellow, the
are.
Their tales of passion, you
tell:
For romance lives upon
But love for eyes, its
And gathered up with
They speak a language that
the postscript, fond and
told:
As if the words came from
soul—
Remember, dear, for I'll be
And teach at last the
goal—
The withered flowers, and
youth.

Drive over and we'll surprise you.

FIGHT NEW VALUATION STEP.

Following the adoption by the City Council yesterday of a resolution urging the State Railroad Commission to order a physical valuation of the properties of the Southern California Telephone Company as a basis for determining whether or not to grant the company's application for an increase in telephone rates, Commercial Superintendent Powers of the company issued statement that there is a new valuation of the company in progress.

"A complete physical valuation of the company's properties," said Mr. Powers, "was made at the time of the construction of the two local companies, and two years was taken in making this inventory and valuation. This valuation was approved by the commission. We feel, therefore, that the board of directors in session all the facts which would be secured were a new valuation or

ditions there, described as very bad, but to the executive rates. Yesterday the business included William F. Moore, traffic manager for the Cudahy Packing Company; F. Miller, traffic manager for Nichols Lumber Company, hay dealers; Henry Ridderford, manager of the Los Angeles Lumbermen's Exchange, and W. G. Flaws, traffic manager for the General Petroleum Corporation and the Continental Mexican Petroleum Company.

Rate schedules on petroleum and petroleum products, prepared by Henry Flaws at the request of Mr. Gregson, were explained by Mr. Flaws at some length when he was called to the stand. The exhibits were intended to show that Southern Pacific freight rates on petroleum and its products from Los Angeles to Imperial Valley points were considerably higher than rates on the same points when shipped equal distances and under similar conditions in other parts of the State.

The testimony of Mr. Miller, dealing with hay shipments from the Imperial Valley, was similar, if from other parts of the State to this city, were along similar lines. The testimony of the witness, the complainants contend, proves that it costs the railroads less to ship his hay to the Los Angeles market by truck than by the Southern Pacific. There is an advantage in shipping by truck, it is admitted, declared in that the hay is picked up at the field and delivered direct to the customer in Los Angeles, whereas by rail there is an additional cost for delivery to the freight car and another cost for hauling from the car to the Los Angeles destination. In spite of this, however, the witness testified, shippers prefer the rail road because the customers thereby enjoy the privilege of inspecting the hay at the railroad team tracks before accepting.

Mr. Ridderford, representing lumber shipping interests, testified to differences in rates on lumber and other box materials as established by the Southern Pacific for different localities.

Commissioner Loveland announced at the close of the hearing yesterday that the other members of the board for hearings before him would prevent the setting of an early date for the continuance of the Imperial Valley freight rate hearing. It is probable that the hearing will consume all of November 8, 9 and 10, according to Mr. Gregson and the railroad attorney.

Sues Three as
Board; One is
Dead, Two Off

Judge Walton J. Wood will be called upon to decide whether members of the Board of Public Works are responsible when accidents result from the bad condition of gutters and streets. A \$5000 damage suit brought by Carl J. and Edith B. Scott against former members of the board was heard by him yesterday and will be concluded today.

The suit is based on the contention that Mr. Scott fell and suffered a broken leg as a result of stepping on a defective cobblestone in the gutter at Seventh and Valencia streets two years ago yesterday.

The suit was brought by Mr. Owen McAfee, P. P. O'Brien, neither of whom is now on the board, and Lorin A. Handley, who has since died.

ENROLLMENT IS TO BE LARGE.

Institute of Technology Will Open Shortly.

Penal Ordinances Considered for Pasadena.

Macdonnell Funeral to Take Place Today.

LOCAL CORRESPONDENCE:
PASADENA, Sept. 15.—The fall term of California Institute of Technology will begin on the 27th inst. Indications point to a record-breaking enrollment of students. Dr. Robert A. Millikan, director of the Norman Bridge physics laboratory and chairman of the executive council of the institute is expected in Pasadena within a few days to take up his new duties. Dr. Millikan will be assisted by a large corps of assistants at the laboratory, where important research work is to be undertaken this winter. With the opening of the new building the laboratory and the first unit of the auditorium will be used for the first time. The laboratory complete will represent an outlay of \$200,000. The auditorium unit cost \$10,000.

PENAL ORDINANCES:

The adoption of a strict moving-picture censorship ordinance, the revision of the present traffic ordinances and the framing of an ordinance with reference to the maintenance of the city's most popular noisy animals in the city limits is being considered by the Board of City Directors. The framing of the ordinances has been intrusted to City Manager W. K. Clegg, City Attorney J. H. Howard and Assistant City Attorney Roscoe Hess. The ordinances are to be passed this month.

Mr. and Mrs. Clark O. Easay today observed their fifty-fifth wedding anniversary with a reception at their home. They were married in Fen du Lac, Wis., in 1868 and for the last four years have been the most prominent residents of Pasadena. For many years Mr. Easay managed a large hotel here.

The funeral of Kenneth Stuart Macdonnell, who died yesterday at Los Vina Mortuaries, will be held tomorrow noon at 2 p.m. at the home of J. S. Macdonnell in San Rafael Heights. Mr. Macdonnell was a brother of Mr. Macdonnell, president of the First National Bank of Pasadena.

September fine at "Coronado."—[Advertisement.]

WOMAN PLEADS TO BE JAILED WITH HUSBAND.

LOCAL CORRESPONDENCE:

ONTARIO, Sept. 15.—Declaring that she was lonesome and did not want to be left alone, Mrs. Antonio Sua, who thus gave her name to the case, was sentenced to a month's housekeeping charge, but who claims to be the wife of Manuel Chaves, taken into custody on the same time, may plead with the same to be released. The County Jail with Chaves, who is just commanding to serve a 90-day term, in view of a \$200 fine, according to Judge George R. Crane.

The woman drew a similar sentence, but was released when she paid \$75 on her fine and promised to pay the balance. Ontario explained to Mrs. Sua or Chaves that she could not be put in jail now, but that in the event she failed on October 15, she would be incarcerated. When convinced that she could not accompany Chaves to jail, she wept bitterly.

Annexation to Glendale Being Sought.

JURY SAYS JUDGE IS INNOCENT.

San Diego Jurist Acquitted Upon Charges of Misconduct in His Office.

LOCAL CORRESPONDENCE:
SAN DIEGO, Sept. 15.—A Glendale annexation petition is being circulated in a small section just west of the city limits. There are thirty-four voters living in this community, and three times as many have been held for annexation to Burbank, and the residents living there have voted to annex. They have asked and received the approval of the City Council, that the petition be circulated, and if the required number of names are obtained an election will be held.

Official announcement is expected in Pasadena within a few days to take up the question. Charles H. Macdonnell, who is to be assisted by a large corps of assistants at the laboratory, where important research work is to be undertaken this winter. With the opening of the new building the laboratory and the first unit of the auditorium will be used for the first time. The laboratory complete will represent an outlay of \$200,000. LOCAL CORRESPONDENCE:

ONTARIO, Sept. 15.—An announcement tonight by Archie D. Mitchell, chief counsel for Earl Davis Mosher, wealthy and prominent Ontario rancher, charged with a serious statutory offense against Leila Bernice Glens, 15-year-old daughter of his ranch superintendent, that he will put up a strong plea when the scheduled for tomorrow morning he held behind closed doors was expected to cause a wave of disappointment among the moribund community, who were looking forward to the hearing as an event.

The preliminary is to be held before Judge George E. Crane at the City Hall, and while the judge has no intention of releasing him, he will grant the request for secrecy if it is thought that it will be complied with.

Mr. Mosher was arrested July 30 on complaint of W. E. Ginn, father of Earl Topping and his lieutenant, Mayor Robert Mitchell represented the city and made a brief speech in defense of his son. The Firemen's Club, which he stated, would mean so much to the man of this city in the way of recreation and social entertainment. Several speakers followed the Mayor, then shovels were dug into the soil by various members of the executive state of the club, after which the real work of excavation began. Work will continue on the site with a delay until the building is completed.

IMPROVEMENTS ON GOLF.
LOCAL CORRESPONDENCE:

VENTURA, Sept. 15.—P. Foster has worked out plans for an outdoor reading-room to be added to the north side of the Library and City Hall Building, which Mr. and Mrs. Foster presented to the town. A pool and fountain are to be built within the structure, which will be on the north side of the building.

OWNERS TAKE STEPS TO PROTECT THEIR PROPERTY DURING WINTER.

TO POLICE CABINS.
LOCAL CORRESPONDENCE:

ONTARIO, Sept. 15.—Owners of cabins in San Antonio and Bear Canyon, which have increased with amazing rapidity during the recent summer, were assured of protection for their property today following a conference between the Canyon Baldy Hotel to arrange for the proper policing of the canyons during the coming winter.

Actions are to be taken on each cabin to see that it is under the care of a protective association and that violators of the law will be prosecuted to the limit.

During the winter past caused the property owners this year to take the protective measures and indications are that the policing arrangement will work out well.

SCHOOL BUILDINGS AT COVINA OVERFLOWING.

LOCAL CORRESPONDENCE:

COVINA, Sept. 15.—With a marked increase in the enrollments in the Covina Union High School and in the Covina grade schools, the two districts are confronted by equipment problems, in spite of the fact that the Covina grammar school enrollment has within a year built a \$100,000 building.

The high school has overflowed with the result that five classes must be held in the old building, while the grammar school has been forced to equip for manual training in one of the public halls. Supt. Ben S. Millikan says that the situation in the school is 77% evidence that the enrollment will increase during the coming month.

Attempts are being made by the districts to arrange for a bond issue with which to erect more buildings.

Charge Against Wetzel is Now Manslaughter.

USES LYSOL IN ATTEMPT TO END LIFE.

Long Beach Man is Near Death; Aged Woman Fractures Skull.

LOCAL CORRESPONDENCE:

SANTA ANA, Sept. 15.—Following an order made by the justice that he be bound over to the Superior Court, the charge against Hugo Wetzel, wealthy Picantea rancher, who is alleged to have shot and killed Fred Elbert, Anahiem boy, in the Weisel watermelon patch on the night of August 31, was reduced from murder to manslaughter. Wetzel was admitted to \$10,000 bonds. His bondsmen were A. L. Porter and Henry T. Hutching. Wetzel will remain at liberty until his Superior Court trial.

George E. Mattis of Anaheim, a well-known boxer, was the chief witness for the prosecution. Mattis, who entered the melon lot with Elbert, told of hearing the shot. When he and another went to the scene, Elbert remarked: "I am Hugo Wetzel. I have shot a man, but his partner got away."

Another witness called was Wetzel's son, Dr. J. W. Truax, who was called when Elbert was brought into the hospital, and several other witnesses for the defense.

CLUB TO GIVE PERSIAN PLAY.

Aged Prophet to Take Part in Glendale Entertainment.

Will Present Version of Omar Khayyam's Rubaiyat.

True Oriental Costumes and Settings to be Used.

BY MYRA NYK.

An interesting coincidence has developed in connection with the presentation of the musical drama version of the Rubaiyat of Omar Khayyam, "In a Persian Garden," Saturday night at the Glendale-Verdugo Woodslands open air theater. The music section of the Tuesday Afternoon Club of Glendale acted as sponsor, the play being given for the benefit of the club building fund.

Unknown to the originators of the project, this being its first presentation in California, the natural theater for its showing happens to be within a short distance of the only real Persian gardens in America. The gardens around the home of the world famous character now in his ninety-seventh year, Mirza Asadullah.

Known throughout Persia and Europe as being in the land he has adopted, the Persian project and costumes is a strong supporter of the dramatic and has written and presented in London "Life's" Myself. It will be in "In a Persian Garden" as the grand finale.

Dr. Ameen Ulah Faried, Los Angeles physician, and the aged Persian composer, as well as authority on the texts and interpretations of Omar Khayyam and is editing William G. Stewart of the musical score. The company includes on costumes, costumes, settings, colorings and lighting effects. The doctor will give the prologue to the musical play in native costume. A dinner more members of the Persian Garden Players Los Angeles-Verdugo Hills group of society and semiprofessional students of oriental drama will appear in the program. Full orchestra will appear on the stage.

Over 1000 seats have been built

SOCIETY.

BY VIRGINIA WOODS.

For Mrs. Gray.
Mrs. Angerian Gray of Louisville, Ky., who is visiting her sisters, Mrs. William J. Chichester and Mrs. Charles Jeffress, yesterday was a charming incentive for the tea at which Mrs. Chappell Q. Stanton was hostess.

Mr. and Mrs. Edwin Stanton have just sold their handsome home and next week will move into the Chapel Q. Stanton home until their new home is built.

For Mrs. Edmund Feist.

Several dinner parties are to be given Saturday evening prior to the dramatic presentation of "In a Persian Garden" from the "Rubaiyat." Mr. and Mrs. F. P. Newport are to be the hosts. Mrs. James W. Foley, who have just returned from San Francisco, where his play written for the "Family Club" there has been a success, will take their guests to see "In a Persian Garden," which is to be staged on the grounds of the future country home of Mr. and Mrs. Newell G. Gray.

Major and Mrs. Spencer Robinson of Glendale are to have a dinner party, including Mr. and Mrs. John V. Vanderveer, Mr. and Mrs. James O. Sigel, Mrs. Henry Soren, Mrs. Bernice Wakefield, Miss Geneva Johnstone-Bishop and Miss

NEWS.

Elizabeth Jordan's Column.

BETTY HEARS A STORY.

"Aunt Jean will tell you one story if you will listen to me, you must not interrupt. You must just listen. Which are the Three Bears?" Oh, no, darling, it can't be all the time only be one story. Why—because it would take Aunt Jean to tell all the stories. Betty, do you want one story or two, then, be quiet.

There were three bears—well, then, once upon a time, if you like.

Once upon a time there were three bears—a father bear,

and a little bear. Yes, yes, a baby bear. Yes, a little

baby bear. Yes, as big as the cat. Yes, I know our cat is

not quite as big as that.

Betty! Aunt Jean told you to be quiet.

Very good, either. Goldenlocks didn't like it.

BETTY'S TENDER HEART.

"So then she saw a little bit of a

dish and she tasted it and it was

so—so—so salty! It was her

hundredth time, because I do

not eat beans, but not one

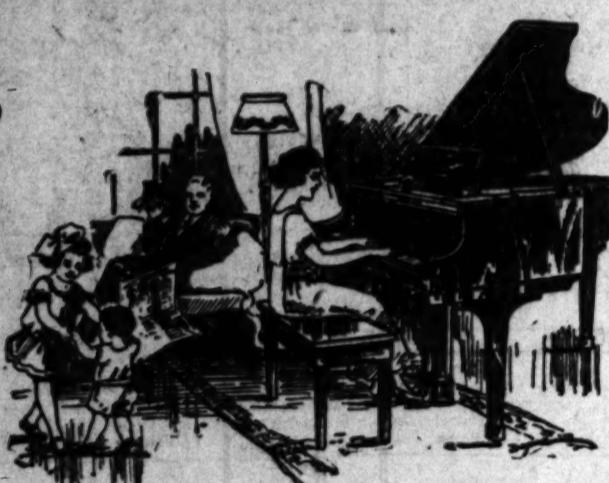

time, I have never

seen a baby bear—no, I haven't

TO FACE DUTY.****Will do Part in Developing Colorado, Says Miller.****President Goes East to Get Support of Capital.****Charges That Corporation's Stand is Misrepresented.**

President John B. Miller of the Southern California Edison Company left yesterday for the East on his semiannual visit to financial centers to consult with bankers and investment companies with a view, he stated, to insuring the regular flow of capital from the sale of the company's securities in connection with the great development projects to which the company is committed.

While in the East, Mr. Miller expects to have a number of important conferences with government officials at Washington regarding the company's power development plans, particularly, at this time, concerning the Colorado River, and the application of the power project for government permits for the development of more than 1,000,000 horsepower on that stream.

"After consulting officials from Director Davis of the United States Reclamation Service to the Imperial Irrigation district, which have been made public, indicates that Secretary of the Interior will call some type of an appropriation by Congress for the construction of the huge flood control and irrigation dam on the Colorado River by the United States government," said Mr. Miller.

"If it is possible for the Secretary of the Interior to secure from Congress an appropriation sufficient to start the dam on the Colorado River, which will equate the stream, remove the menace from flood, and establish the necessary water for irrigation, I believe it would greatly facilitate the whole development. If the construction of the whole flood control and irrigating dam be undertaken by the United States government, it would correlate the interests of the several states directly interested, make perhaps easier of solution any international problems that may arise, and greatly facilitate the development of the flood control and the increase in the minimum flow of water for the irrigation of several million additional acres of land. Development along the river would be productive as to tremendously increase the public wealth of the entire Southwest and it would seem that this is an expenditure, which might very well be made by the Federal government.

LOGICAL LOCATION.

"The location of the controlling dam should, however, be high upon the stream in Glen Canyon above Lee's Ferry, in order that the maximum power development opportunities shall be conserved and these developments made at the minimum of cost. With the dam located at this point, it would be possible to use the water for power purposes over and over again, by a total fall in the river of 3000 feet through a chain of eight powerhouses, including Boulder Canyon, the total capacity of which would eventually be 4,250,000 horsepower. It would be assumed that, in connection with this plan for government construction of the dam for flood control and irrigation purposes, the Federal Power Commission or the Secretary of the Interior would be placed in position to license the power development to such extent as is in position to undertake such development and provide the market for the consumption of power, under government control, in cooperation with both Federal and State regulation.

"The applications of our company now filed with the Federal Power Commission include the dam construction as well as power development, and we are prepared to proceed along these lines, but if it is possible that the dam construction would be done by the Federal government, then we would be in a position to make such changes in our applications as to confine them to power development only, which is our regular business."

Mr. Miller further added that the Southern California Edison Company could have no objection to the suggested plan of the construction of the all-important dam and the control and development of the water by the Federal authorities.

"In view of the responsibilities and obligations assumed by the company to provide an adequate electric power supply to the rapidly growing population which the company operates," he said, "we are prepared to devote our executive and engineering organizations, as well as our financial and financial and established credit, to the speedy development of the electric power possibilities of the Colorado River," he said.

"In this connection, I wish to state that the Southern California Edison Company is charged with the responsibility and is held strictly accountable by the State authority for the maintenance of an adequate supply of electricity at reasonable rates. With this in mind, the company is prosecuting the development of water power in the high Sierras and the Colorado River, and has added an additional \$2,000 horsepower within the last twelve months. It has a further program of development within the State amounting to about \$10,000,000, and the budget for the development of water power in the high Sierras for the year 1922 is \$28,000,000.

READY TO DEVELOP.

"Looking ahead, and wishing to be forehanded in the protection of its consumers and at the instance of various interests tributary to the Colorado River, this company has taken initial steps pointing to the development of that river and is willing and able to undertake its whole development. It is not actuated by any selfish motive, as, under the regulation of its rates, it is not allowed to make a profit in the ordinary sense of the term, but is limited to a return upon its investment, which will only cover its reasonable expenses of operation and the going cost of money. The company's sole desire is to do its full duty to a public utility in the service of the people."

"I make this brief statement because, in some directions, for selfish and political reasons, a persistent effort has been and is being made to misinform the public as to the position of this corporation with reference to the Colorado River."

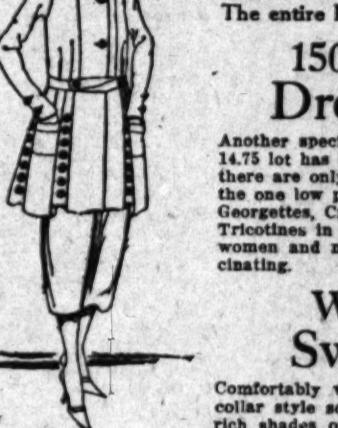

Store Open All Day Saturday**Hamburger's Down-stairs Store****A Group of 10.00 to 15.00 Values in this Sale of Women's Suits, 7.50**

Only enough to meet the demands of forty-eight fortunate women, for this is the number that go on sale this morning at this astoundingly low price—a price the materials alone would cost much less the making!

French Serges, Tricotines, Jerseys, Wool Poplins, Storm Serges and Fancy Tricotines in Fall

There are box coat styles, also middy effects, and belted styles with pockets, for both women and misses.

The entire lot is to be sold today at the low price of 7.50.

Coast Conference Grid Teams Get Busy Their Prepping.

BIG WEEK IN A FOOTBALL WAY.

All Coast Conference Teams Start Practice Season.

Shy Huntington Predicts a Better Year Than Last.

Says Washington State May Welltop California Bears.

PORTLAND (Or.), Sept. 15.—This is a big week in the calendar for it witnesses the official launching of the football season. This is by agreement in the Pacific Coast conference and most of the smaller institutions outside the conference by common consent follow the example of the major schools.

On the whole, losses from graduation in Oregon, Washington, Washington State and the Oregon Aggie have made less severe inroads on the teams than is generally the case. Football destinies in the four schools are in the hands of coaches of proved ability, and reports from all of the schools, with the possible exception of Washington U. are to the effect that new material is unusually promising.

Shy Huntington, head coach at Oregon, expresses the general opinion that "we are in line" which he predicts this will be the best football season the Pacific Coast has seen.

ALL STRONGER.

"Most of the teams will be stronger, or at least the indications are that way, and the competition will be something fierce," declares the man who succeeded Bill Beedek at Eugene. "Oregon is not a great number of veterans on the squad, but some of the new men give remarkable promise. Other teams are far from ready to stop and hard to run over, though I don't say they will not be fooled. They haven't had the experience yet to enable them to make a forward pass before it is Capt. A. W. Smith, all-American

WILSON'S FIGHT MONEY HELD UP.

(BY A. P. NIGHT WIRE)

JERSEY CITY (N. J.) Sept. 15.—The New Jersey Boxing Commission today adopted a resolution accusing Johnny Wilson of Boston, middleweight boxing champion, of failure to put forth his best efforts in his match with Bryan Downey of Cleveland, in this city on Labor Day. The commission voted to place Wilson's share of the purse in a depository, pending final disposition of the case.

thrown or a trick play before it is pulled, so then may have the heads of both the new and then. But after they get experience they will be tough customers for any team to beat.

"On October 1 I think will also be considerably stronger than last season," continues Huntington. "Washington State has lost two great players in Hammon and Gandy, but got one place man like them. Nevertheless, the Pullman aggregation should be very formidable. As for Washington, Downey never comes the backfield weakness of last season anything may happen for Washington has a strong line.

"GOT YOU BEARS!" Do I think Washington State has a good chance to beat California on October 27? I do. A first-class chance. Even inexperienced as our own team will be, I believe we can give the Bears a hard time. I think we may play them in Berkeley October 25.

Oregon's hope of landing a post-season game with Center College of Kentucky is off. Graduate Manager of the school sent a telegram from Center saying: "Unable to play you in December." The Oregonians would still like to have an Eastern team for an early December game. They have not yet selected another prospective opponent.

While greatest interest probably centers in football, it is not due to overlook the Army and Navy as a factor in the 1931 football situation. Southern California may expect the man who succeeded Bill Beedek at Eugene. "Oregon is not a great number of veterans on the squad, but some of the new men give remarkable promise. Other teams are far from ready to stop and hard to run over, though I don't say they will not be fooled. They haven't had the experience yet to enable them to make a forward pass before it is Capt. EVANS TO FACE A TOUGH FIELD.

(BY A. P. NIGHT WIRE)

"Chick" is to Defend His Title in Golf Tourney.

Grilling Contest Expected at St. Louis Tomorrow.

All Entrants Have Displayed Fine Racket Work.

(BY A. P. NIGHT WIRE)

EVANS, Sept. 15.—Chick Evans will defend his title as national amateur golf champion this year against the most closely selected field and in the most grueling competition in the history of the event since the tourney was organized Saturday at the St. Louis Country Club. Among the contenders are Willie L. Hunter, British amateur champion.

Entries filed with the United States Golf Association break all records for the low handicap rating of the players allowed to compete and the struggle has been expanded so that only an accident can bar the best of the field from reaching the final round. The field has been cut into the circle of thirty-two players who contest the title in five thirty-six-hole matches. To add to the difficulty of the tourney, the first play will take place in two individualistic tries to compel the maximum variety of shots to bring success.

TO SPILL FINIS.

All the entrants, including a score of more than 100 men who have displayed remarkable golf during the year, will play an eighteen-hole elimination round on Saturday preceding the full week of play usually held. This will spell fits for all but the best of the field, but the tourney will be a success. This list of sixty-four should contain all those capable of working their way through the first rounds to any appreciable distance.

But the ability to get a score among the best sixty-four will add to the interest of the competition in the championship arena, for these sixty-four must, on Monday, play not only one more eighteen-hole round, but also a second round of the course to determine the thirty-two men who may enter the match rounds.

This arrangement provides the contestants with a variety of possible champion who might slip a stroke or two in eighteenth hole.

ARE THIN BEST.

With the thirty-two best amateur golfers in America, minus places in the charmed circle that may be won by the four British champions, Hunter, Thomas, Armand, Williams, R. McCay and Raymond Smith, the first round of match play will be set for the first round, and the sixteen survivors will be in the field for the second round of that day will play eight thirty-six-hole matches on the course. The tourney will last four thirty-six-hole contests from Thursday with the semifinals on Friday and the ultimate struggle on Saturday.

Sept. 15.—Willie Hunter, the British amateur golf champion, has been for some time familiarizing himself with the game of golf in America, and in championships until he won the title this summer, although he drives a long iron and has a crispness to his iron that produces a "mop" sound so familiar to golfers, when the blade of the iron meets the guita perch of the ball and the grass flies. He failed to outdistance the American champion from the tee, but thus far no one has come up with him, and it is evident that he is more exact than Evans with either iron or iron.

DRIVES LONG BALL.

(BY A. P. NIGHT WIRE)

NEW YORK, Sept. 15.—Babe Ruth took his home-run record to the hazardous links of the St. Louis Country Club, where placement of the drive is almost as important as precision in approach. A wooden shot that comes to rest at a certain point on almost any of the fairways is a valuable assistance to the player's chances of getting the ball home or even home at all in two shots, for the same length of drive landing probably only ten feet to the right or left of that point may mean an extra stroke to reach the green.

Exactness will count more than distance in the hazardous links of the St. Louis Country Club, where placement of the drive is almost as important as precision in approach. A wooden shot that comes to rest at a certain point on almost any of the fairways is a valuable assistance to the player's chances of getting the ball home or even home at all in two shots, for the same length of drive landing probably only ten feet to the right or left of that point may mean an extra stroke to reach the green.

TURNOUT IS A TROJAN RECORD.

(Continued from First Page.)

squad who are expected to scintillate with particular luster on the varsity this year are Gordon Campbell and Phil Tieran, halfbacks. These two and Galloway are certain to be the leaders of the team in places with a lively game. Henderson seems to be well fortified with first-class backs. Then there is fullback, who, when he returned to fullback this year, however, he gave up the Bear maul, so it is very likely that the Trojan line is shaping up to his expectations.

Practice will be resumed at the old stadium tonight, with more candidates on tap.

AUTO THIEVES COP EIGHT CARS.

The following autos were stolen from the streets of Los Angeles yesterday: Nov., 1931, roadster, 121-470; Dodge, 1931, sedan, 125-327; Marmon, touring, 516-481; Oldsmobile, 1931, touring, 517-375; Buick, 1930, touring, 456-438; Ford, 1931, 514-682; Chalmers, 1931, coupe, 534-431. Anyone seeing any of these cars will please notify the auto theft bureau of the Auto Club of Southern California or police headquarters.

ALL IS SET FOR BALLOON RACE.

(BY CARL AND ASSOCIATED PRESS)

BRUNSWICK, Sept. 15.—American pilots here to compete for the James Gordon Bennett balloon cup, are virtually ready to make their jump-off Sunday. They are Ralph Upson, W. T. Van Norman and Bernard Van Hoffen.

Seven nations will be represented in the race. They are Great Britain, France, United States, Italy, Spain, Switzerland and Belgium.

GRID WORK IS GETTING ROUGH.

(Continued from First Page.)

to 190 pounds, looking well at center. McDonald, Bright, Novak and Wood—all men who have the covered men's program last year—will be the leaders of last season's sub, including Chambers, Manning and Clark, are strong contenders for places on the team.

Several old grads have been around to impart their football knowledge to the aquatics. Gage, Carty, Tubby, Ong, the Slaughterman, and Tufts Conn were much in evidence yesterday. The Columbia City boys are using a vacuum lot for practice, while Horrell Field is being polished up for the season.
